Pinnacle Quest Pension Plan

Pinnacle Quest Pension Plan is a long-term investment policy that aims to help you build up funds for your retirement income. The plan is denominated in USD, which protects clients against the volatility of the Ghana cedi through their working lives. Retirement is one of the most important life events many of us will ever experience. From both a personal and financial perspective, realizing a comfortable retirement is an incredibly extensive process that takes sensible planning and years of persistence. Even once it is reached, managing your retirement is an ongoing responsibility that carries well into one's golden years. Retirement planning today has taken on many new dimensions that never had to be considered by earlier generations. Life expectancy has improved as people are living longer. Longer life spans have created a number of new issues that need to be taken into consideration when planning for retirement. The product helps clients to put aside a percentage of their monthly surplus, which is invested into Mutual Funds to give the client an opportunity to gain financial security at retirement.

WELCOME

The image shows a wall covered in a repeating pattern of blue and white geometric shapes, resembling stylized houses or diamonds. In the center of the wall, the Sanlam logo (a stylized blue house shape) and the word "Sanlam" in a bold, blue, sans-serif font are prominently displayed. Above the logo and text, a white rectangular object, possibly a light fixture or a small screen, is mounted on the wall. To the right of the main text, there is a vertical decorative element that looks like a blue and white patterned curtain or a hanging plant.

Website Development & Design

In the digital era, your online presence is your brand's digital story. We develop visually appealing and user-friendly websites that transcend mere aesthetics.

Our focus extends beyond the surface – we prioritize functionality and responsive design.

Every website we build is a chapter that engages visitors, conveys your brand story, and drives conversions.

**Our work
speaks for itself**

Client:

The National Alternative Employment and Livelihood Programme for illegal miners (NAELP) is an initiative of the Government of Ghana under the auspices of the Ministry of Lands and Natural Resources.

Client Request:

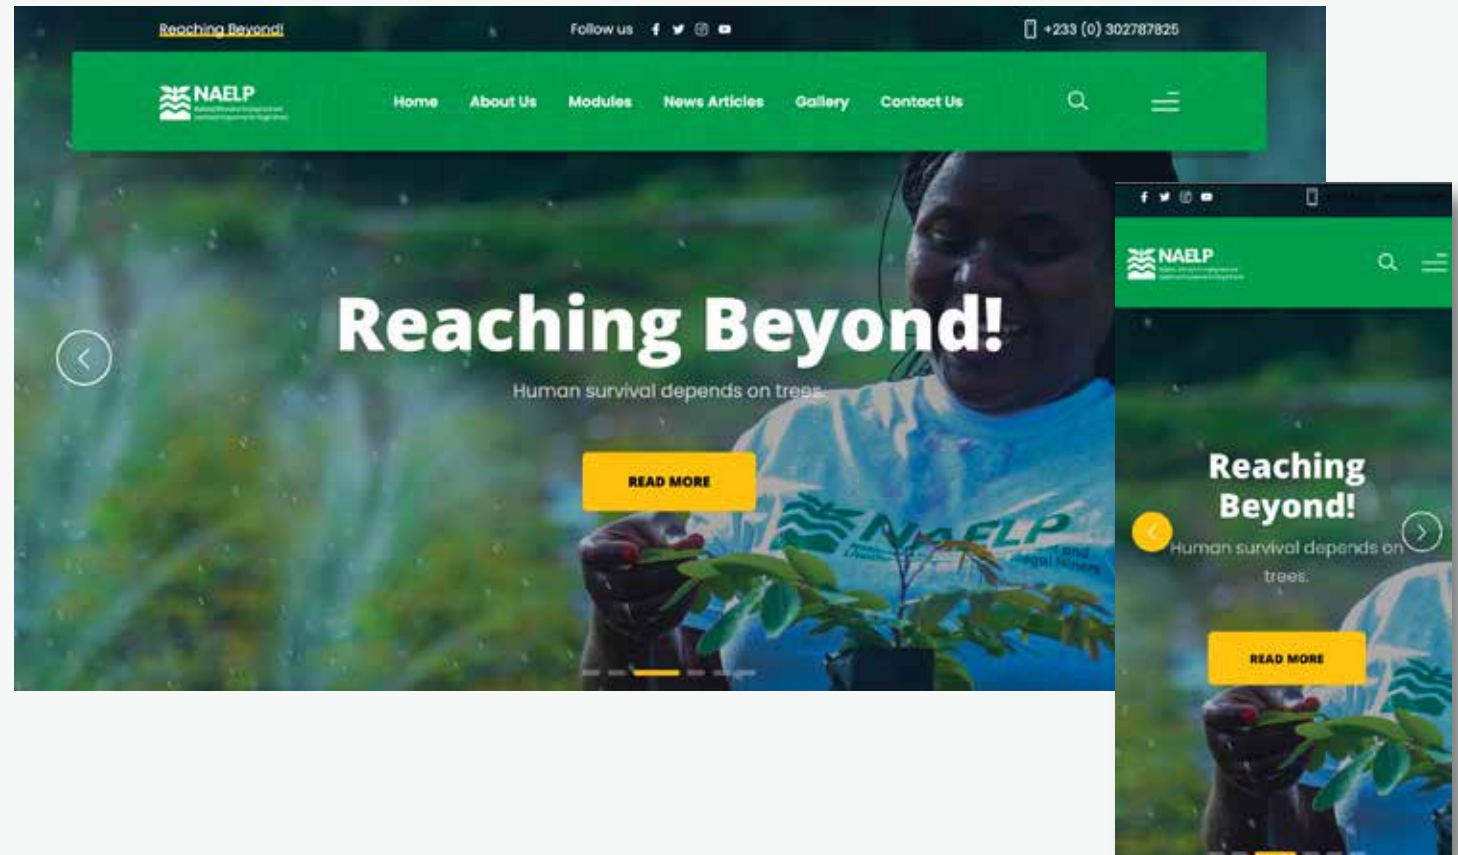

In response to the evolving dynamics of its mission, NAELP sought a transformation in its visual identity. The request was clear: a new logo that resonates with its stakeholders and the public.

Deliverables:

Our task was to breathe new life into NAELP's brand.

We created their existing logo and a responsive web development & design for them.

This online space now serves as an engaging platform, effectively communicating their mission and vision.

Client:

FRIMPS OIL is an Oil Marketing Company which distributes petroleum products. It was incorporated as a private limited liability company and is licensed by the National Petroleum Authority.

Client Request:

To undergo a complete rebranding of their filling stations to the public.

Deliverables:

We designed the existing FRIMPS logo.

Deliverables:

Produced an architectural design for their canopy construction in different locations.

Deliverables:

Website revamping.

Deliverables:

We also organized a physical launch for their rebranding exercise.

The background features a dark gray to black gradient. On the left, there is a cluster of overlapping squares of varying sizes and shades of gray. On the right, a large, light gray arrow shape points upwards and to the right, partially overlapping the squares and extending towards the top right corner.
